Changshu Jinyu Floral Foam Co., Ltd is a leading floral foam manufacturer and exporter. It is located in Changshu city, Jiangsu province which is near Shanghai port. The factory occupies over 10,000m².

Our company mainly provide wet floral foam for fresh flowers, dry floral foam for artificial flowers, growing media for soilless culture and different shaped floral foam for floral design.

We have more than 20 years' production experiences (since 1995) and have R&D laboratory, production plants and sales team. We supply excellent high quality floral foam for global clients. We use full automatic machines for controlling the production lines. Our foam quality is consistent and stable and it has nice appearance. The advantage include proper saturation time, long water retaining time, high density/hardness and balance PH level. So it keeps fresh flowers' lives long.

We are ahead in the industry for many years, for providing stable quality and good service. We sincerely look for being your reliable partners. We also supply one-stop floral products solution. Please contact our sales representative for more details.
